

# Field Seating

A safe, convenient and worry free seating solution

## Applications

eps offers a unique service to the event industry, specialising in all aspects of temporary field seating requirements.

It can be for seated concerts at outdoor stadiums for the likes of Elton John, Bon Jovi, or any other event such as World Youth Day or World Title Boxing matches.

## Features

Our service includes a complete package right through from concept plans for government application to council, through to specific seating plans ready for ticketed sale, installation including custom waterproof seat labelling, block signage, and finally removal from site. At all times liaise with both the management and staff in compliance with specific site requirements.

eps has on file the largest data base of major stadiums, wineries and green sites.

## Optional Services

We also consult to potentially new sites with the view to establish suitable layouts and offering CAD based site plans to help you make the most of the available space.

# Field Seating
